Welcome:

It is with great sadness that we disperse our entire cow herd. We have spent many hours in caring for and selecting the type of breeding we wanted to produce. The cow herd at this time lacks the uniformity that was our goal but it surely does not lack quality. The get and service of some of the top bulls in Northwest Missouri are represented in this sale and we feel that we are offering cattle with great potential.

We would now like to take this opportunity to sincerely thank all those who have supported us in getting our herd started, those who have purchased breeding stock, other breeders whose advice and counsel has been so helpful and last, but not least, the support and sacrifice of friends and relatives in the raising of our Shorthorns.

Sincerely,

**Walter Stubbs, Walt Jr. & Will

Dear Shorthorn Breeders:

I sincerely hope you'll be with us October 22, 1977, for the guaranteed dispersal of the STUBB'S POLLED SHORTHORN HERD.

Over the years, if Stubb's has followed any one trend, it has been to have a cow herd that with no pampering; will milk and produce a live calf every year and one that will grow.

Maybe the cattle cycle has started its upswing at long last. If this is the case, it may be the ideal time to get our house in order to produce money making cattle for future years.

If Walt or I can be of any assistance, please contact: Walt Stubbs, Edgerton, Missouri 64444, 816/227-3547 or Gary Roach, Dearborn, Missouri 64439, 816/992-3747.

Sincerely,

Gary Roach
